	Contract Duration and a Summary of its Scope	<p>Total contract amount is PKR 146,666,786/-</p> <p>Duration: The endline survey is the second phase of the impact evaluation activity and is expected to be completed in eight (08) months.</p> <p>Scope of Assignment: The scope of assessment includes collecting data through household and facility-level endline surveys for an Impact Evaluation and use this information to produce clean datasets for empirical analysis. The data collected from these surveys shall be used along with the baseline data collected in 2023 and 2024 and will be used to estimate the impact of each of the project components outlined above, as well as the overall impact of the project. The impact evaluation exercise will assist in the assessment of each intervention to determine the most effective approach to improve the human capital of poor and vulnerable populations in Punjab. Moreover, the results of the impact evaluation will contribute to discussions around policy reforms and strategies for scaling up successful models for graduating from social assistance and ending extreme poverty.</p> <p>The endline survey is the second phase of the impact evaluation activity and is expected to commence in May 2025 and conclude in December 2025. The main tasks/events for the endline survey shall include the following:</p> <ol style="list-style-type: none"> i. Orientation of the Service Provider ii. Translation of Survey Tools iii. Pilot 1 for tracking/sampling procedures for main and booster sample iv. Programming of survey tools on Survey CTO v. Pilot 2 to test the survey tools vi. Revision to programming of survey tools on Survey CTO vii. Enumerator training including Teach and AIMECD training viii. Pilot 3 of the revised survey tools ix. Field Activity for BHUs, Schools and Households <p>To carry out the above responsibilities during preparation and execution of endline survey, the Service Provider shall ensure (a) recruiting and training an all-female enumerator team, and (b) carrying out all aspects of field-based primary data collection for the endline survey. The Service Provider will translate and adapt (as needed) survey questionnaires, pilot the instruments, carry out the fieldwork for data collection, and support data cleaning and archiving. The Service Provider will manage these tasks, which will have agreed quality standards associated with them. The Service Provider will coordinate with the Employer and its collaborators in ensuring that quality standards are being met.</p>
